Dallas, TX | 972-903-7461 | paytonjkelley@gmail.com | [LinkedIn](#)

SUMMARY

Product management professional with years of experience leading cross-functional teams to build and scale data-driven products for the mortgage and financial services industry. Combines deep technical grounding in Master Data Management, Big Data Analytics, and Agile delivery with a track record of translating complex, technical concepts into clear strategy for executives and non-technical stakeholders. Currently applying agentic AI to accelerate product research, requirements development, and roadmap planning.

KEY QUALIFICATIONS

- **Product Leadership:** Owns product vision, roadmap, and backlog for enterprise data products end-to-end, from discovery through production, aligning delivery with business goals and customer needs.
- **Technical Expertise:** Deep working knowledge of Master Data Management (MDM), Big Data Analytics, geospatial analytics, and data governance.
- **Strategic Vision:** Partners with commercial product management leaders to shape product features and go-to-market roadmaps.
- **Cross-Functional Collaboration:** Proven track record aligning architects, software engineers, data engineers, and QA to deliver on schedule.
- **Data-Driven Decision Making:** Skilled in data analysis, synthesis, and storytelling that informs product strategy and planning.
- **Google Cloud & AI:** Working knowledge of Google Cloud Platform and agentic AI, applied to product development and data management workflows.

EXPERIENCE

Cotality (formerly CoreLogic)

Product Manager, Mortgage Payment Solutions | 2022 – Present

- Own the product roadmap and backlog for enterprise commercial tax software, aligning business priorities with technical execution.
- Partner with engineering, QA, UX, operations, and business stakeholders to define product strategy, prioritize initiatives, and deliver customer-focused solutions.
- Translate business requirements into detailed user stories, acceptance criteria, process flows, and functional specifications.
- Lead Agile ceremonies — sprint planning, backlog refinement, sprint reviews, and release planning — to keep delivery on track.
- Manage multiple concurrent initiatives from discovery through production, balancing competing priorities, dependencies, and timelines.
- Drive cross-functional collaboration to resolve issues, remove blockers, and improve delivery efficiency.
- Facilitate stakeholder meetings, product demos, and requirements workshops to build alignment and communicate progress.
- Analyze customer feedback and product performance to identify enhancement opportunities and recommend strategic improvements.
- Coordinate release management, including feature readiness, testing, documentation, and production deployment.
- Use agentic AI to accelerate product research, requirements development, workflow optimization, and strategic planning.

PennyMac Loan Services

Loan Analyst | 2021 – 2022

- Designed and implemented technical solutions for business-sponsored projects focused on data quality, validation, and reporting.
- Managed vendor relationships for application ownership, ensuring contract adherence and SLA compliance.
- Collaborated with management to contextualize data reports and deliver actionable insights.

Mr. Cooper / Nationstar Mortgage Co.

Project Management Assistant, Workforce Management | 2019

- Developed and maintained technology capability roadmaps aligned with business priorities.
- Managed IT standards across a portfolio of applications, ensuring compliance with change control and data management practices.
- Built strong relationships with internal partners, facilitating successful project execution and delivery.

PMG Retail and Entertainment

Data Analyst | 2017 – 2018

- Analyzed and transformed complex data sets to support production operations, client inquiries, and project work.
- Partnered with business and IT stakeholders to define system requirements and translate them into actionable solutions.

EDUCATION

Master of Business Administration | Dec. 2024

Liberty University, Virginia

Bachelor of Arts, Computer Science and Business | Dec. 2020

University of Texas, San Antonio
